Processor	Min. Core i5
Frequency and RAM	Min. 2 GB RAM
Minimum screen resolution	1,024 px (Recommended: 1,280 px x 1,024 px)
Note	This software can be integrated into most antivirus programs. Certain user-defined ports are used by the application and must be excluded from the file scan: 2111, 2112 and 2122 (SICK device communication). The software can also be started via a Windows-based virtual machine.

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
