Detailed technical data

Features

Description	The Presence Inspection license makes it possible to use some of the tools of the SICK Nova SensorApp. Using these tools, vision sensors verify, for example, whether or not objects – like on a conveyor – meet the relevant specifications and are positioned correctly.
Task	<ul style="list-style-type: none"> Detecting - Standard objects Detecting - Level Measuring - Dimension, contour and volume Monitoring and controlling - Quality Identifying - Pattern Identifying - Sorting Determining position - 2D position determination Determining position - 3D position determination
SensorApps	Nova Visionary-S, Nova Visionary-T Mini, Nova LMS4000
Product category	Programmable, configurable
Expansion options	The SICK Nova Tool plug-in enables customer-specific or new tools to be added. Development and customization of the tools is supported by SICK AppSpace and SICK AppStudio.
Documentation	Operating instructions

System requirements

Minimum screen resolution	1,366 px x 768 px
Installation tool	SICK AppManager

Licenses

Product type	Software
License type	Device license
Fee-based	Yes
License period	Unlimited
Provision	The license is sold with a ticket that you receive in an e-mail. For use on a specific SICK device, you must activate the license at license.sick.com .
Expansion options	Customers can expand the usable toolset, if available in the SICK Nova SensorApp, with the Quality Inspection Upgrade license.

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
