

# TIM310-1130000S02

TiM

2D LIDAR SENSORS

**SICK**  
Sensor Intelligence.

## Ordering information

| Type              | part no. |

## Detailed technical data

## Features

|                              |                                       |
|------------------------------|---------------------------------------|
| <b>Application</b>           | Indoor                                |
| <b>Measurement principle</b> | HDDM <sup>+</sup>                     |
| <b>Light source</b>          | Infrared (850 nm)                     |
| <b>Laser class</b>           | 1 (IEC 60825-1:2014, EN 60825-1:2014) |
| <b>Aperture angle</b>        |                                       |
| Horizontal                   | 270 °                                 |
| <b>Scanning frequency</b>    | 15 Hz                                 |
| <b>Angular resolution</b>    |                                       |
| Horizontal                   | 1 °                                   |
| <b>Working range</b>         | 0.05 m ... 4 m                        |
| <b>Scanning range</b>        |                                       |
| At 10% remission factor      | 2 m                                   |

## Mechanics/electronics

|                               |                                                   |
|-------------------------------|---------------------------------------------------|
| <b>Connection type</b>        | 1 x M12 12-pin male connector (0.8 m)             |
| <b>Supply voltage</b>         | 9 V DC ... 28 V DC                                |
| <b>Power consumption</b>      | Typ. 4 W, 16 W with 4 max. loaded digital outputs |
| <b>Output current</b>         | ≤ 100 mA                                          |
| <b>Housing color</b>          | Light blue (RAL 5012)                             |
| <b>Enclosure rating</b>       | IP65 (IEC 60529:1989+AMD1:1999+AMD2:2013)         |
| <b>Protection class</b>       | III (IEC 61140:2016-1)                            |
| <b>Weight</b>                 | 150 g, without connecting cables                  |
| <b>Dimensions (L x W x H)</b> | 60 mm x 60 mm x 79 mm                             |
| <b>MTBF</b>                   | > 100 years                                       |

## Safety-related parameters

|                         |           |
|-------------------------|-----------|
| <b>MTTF<sub>D</sub></b> | 100 years |
|-------------------------|-----------|

## Performance

|                                      |                                                                                             |
|--------------------------------------|---------------------------------------------------------------------------------------------|
| <b>Response time</b>                 | 1 scan, typ. 67 ms<br>2 scans, ≤ 134 ms <sup>1)</sup>                                       |
| <b>Detectable object shape</b>       | Almost any                                                                                  |
| <b>Systematic error</b>              | ± 40 mm <sup>2)</sup>                                                                       |
| <b>Statistical error</b>             | < 20 mm <sup>3)</sup>                                                                       |
| <b>Integrated application</b>        | Field evaluation                                                                            |
| <b>Number of field sets</b>          | 16 field triples (48 fields, 1 triple (3 fields) can be configured directly at the scanner) |
| <b>Simultaneous evaluation cases</b> | 1 (3 fields)                                                                                |

<sup>1)</sup> At +45° to +225° of the working range; max. 150 ms at -45° to +45° of the working range.

<sup>2)</sup> Typical value; actual value depends on environmental conditions.

<sup>3)</sup> Typical value, actual value depends on ambient conditions. Technical data such as measurement errors and sensing range can only be guaranteed up to a sensing range of 10 m at 90% remission.

## Interfaces

|                           |                                        |
|---------------------------|----------------------------------------|
| <b>USB</b>                | ✓                                      |
| Remark                    | Micro USB                              |
| Function                  | Service interface, parameterization    |
| <b>Digital inputs</b>     | 4                                      |
| <b>Digital outputs</b>    | 3 (NPN, additional 1 x "Device Ready") |
| <b>Delay time</b>         | 67 ms ... 30,000 ms (configurable)     |
| <b>Dwell time</b>         | 67 ms ... 600,052 ms (configurable)    |
| <b>Optical indicators</b> | 2 LEDs (ON, switching status)          |

## Ambient data

|                                            |                                                                                                                                                                           |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Object remission</b>                    | 4 % ... 1,000 % (reflectors)                                                                                                                                              |
| <b>Electromagnetic compatibility (EMC)</b> |                                                                                                                                                                           |
| Emitted radiation                          | Residential area (EN 61000-6-3:2007+AMD:A1:2011)                                                                                                                          |
| Electromagnetic immunity                   | Industrial environment (EN 61000-6-2:2005)                                                                                                                                |
| <b>Vibration resistance</b>                |                                                                                                                                                                           |
| Sine resonance scan                        | 10 Hz ... 1,000 Hz <sup>1)</sup>                                                                                                                                          |
| Sine test                                  | 10 Hz ... 500 Hz, 5 g, 10 frequency cycles <sup>1)</sup>                                                                                                                  |
| Noise test                                 | 10 Hz ... 250 Hz, 4.24 g RMS, 5 h <sup>2)</sup>                                                                                                                           |
| <b>Shock resistance</b>                    | 50 g, 11 ms, ± 3 single shocks/axis <sup>3)</sup><br>25 g, 6 ms, ± 1,000 continuous shocks/axis <sup>3)</sup><br>50 g, 3 ms, ± 5,000 continuous shocks/axis <sup>3)</sup> |

## Dimensional drawing

Dimensions in mm (inch)

- ① 2 x straight plates with M3 x 4 mm screw (included in delivery)
- ② M3 threaded mounting hole, 2.8 mm deep (blind hole thread), max. tightening torque 0.8 Nm
- ③ Optical hood
- ④ Receiving range (light inlet)
- ⑤ Transmission range (light emission)
- ⑥ Red and green LED (status displays)
- ⑦ Function button for teach-in
- ⑧ Connecting cable outlet (connection for power/digital inputs/outputs)
- ⑨ Micro USB female connector, type B
- ⑩ Marking for the position of the light emission level
- ⑪ Bearing marking to support alignment (90° axis)
- ⑫ Aperture angle 270° (scanning angle)
- ⑬ Area in which no reflective surfaces are allowed for mounted devices

## Working range diagram

## PIN assignment Power I/O connection

Connecting cable with male connector or M12 male connector, 12-pin, A-coded

- ① GND
- ② DC 9 V ... 28 V
- ③ In<sub>1</sub>
- ④ In<sub>2</sub>
- ⑤ OUT1
- ⑥ OUT2
- ⑦ OUT3
- ⑧ OUT4
- ⑨ PNP: INGND, NPN: IN 9 V ... 28 V
- ⑩ In<sub>3</sub>
- ⑪ In<sub>4</sub>
- ⑫ nc

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

**For us, that is “Sensor Intelligence.”**
