#### Detailed technical data

#### **Features**

Special applications	Standard
Device type	Standard
Dimensions (W x H x D)	30 mm x 53 mm x 78.5 mm
Sensing distance	≤ 13 mm
Sensing distance tolerance	± 5 mm
Housing design	Large
Light source	LED, RGB <sup>1)</sup>
Wave length	470 nm, 525 nm, 625 nm
Light emission	Short device side
Light spot size	0.9 mm x 3.8 mm
Light spot direction	Vertical <sup>2)</sup>
Receiving filters	None
Teach-in mode	1-point teach-in, 2-point teach-in, teach-in dynamic, auto mode
Output function	Light/dark switching
Delay time	Adjustable
Delivery status	2-point teach-in
Parameter presettings	None
Setting the key lock	Standard
Safety-related parameters	
MTTF <sub>D</sub>	291 years

 $<sup>^{1)}</sup>$  Average service life: 100,000 h at  $\rm T_U$  = +25 °C.

 $<sup>^{2)}</sup>$  In relation to long side of housing.

#### Interfaces

Analog	√ , Analog output (voltage)
Analog output	$Q_{\rm A}$
Number	1
Туре	Voltage output
Voltage	0 V 10 V
Digital output	$Q_1$
Number	1
Digital input	$ln_1$
Number	1

#### Electronics

Protection class  III  Circuit protection  U <sub>V</sub> connections, reverse polarity protected Output Q short-circuit protected	Retention time (ET)	25 ms, non-volatile memory
Circuit protection  U <sub>V</sub> connections, reverse polarity protected Output Q short-circuit protected	Time delay	None
Output Q short-circuit protected	Protection class	III
	Circuit protection	Output Q short-circuit protected

 $<sup>^{1)}</sup>$  Limit values: DC 12 V (–10 %) ... DC 24 V (+20 %). Operation in short-circuit protected network max. 8 A.

#### Mechanics

Housing material	VISTAL®
Optics material	COP

 $<sup>^{2)}\,\</sup>mathrm{May}$  not fall below or exceed  $\mathrm{U}_{\mathrm{V}}$  tolerances.

<sup>3)</sup> Without load.

 $<sup>^{4)}</sup>$  With light/dark ratio 1:1.

<sup>5) 1-</sup>point teach-in (color mode): 16 kHz.

<sup>6)</sup> Signal transit time with resistive load.

 $<sup>^{7)}</sup>$  1-point teach-in (color mode): 30  $\mu$ s.

 $<sup>^{8)}</sup>$  1-point teach-in (color mode): 15  $\mu$ s.

<sup>9)</sup> Total current of all Outputs.

## KTX-WP9114225UZZZZ | KTX

#### **CONTRAST SENSORS**

Connection type	Plug, M12, 5-pin
Weight	94 g

#### Ambient data

Ambient operating temperature	-20 °C +60 °C
Ambient temperature, storage	-25 °C +75 °C
Shock load	According to IEC 60068-2-27 (30 g/11 ms)
Enclosure rating	IP67
UL File No.	E181493

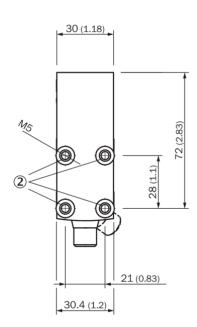

#### Certificates

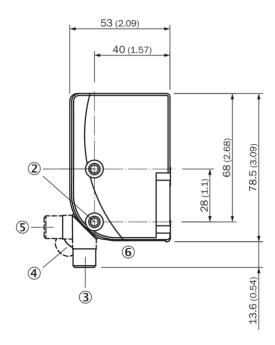

EU declaration of conformity	1
UK declaration of conformity	1
ACMA declaration of conformity	1
Moroccan declaration of conformity	1
China RoHS	1
cULus certificate	1
Photobiological safety (IEC EN 62471)	1

#### KTS/KTX Prime - setting the switching threshold (2-point teach-in)

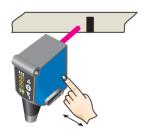

Suitable for manual positioning of the object to be detected, e.g. marks and background.

#### 1. Position mark

When setting the contrasts to be detected, "1st" flashes.
Press set button.

#### 2. Position background

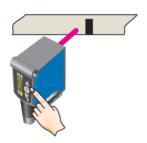

When setting the contrasts to be detected, "2nd" flashes. Press set button. The Quality of Teach is displayed.

#### KTS/KTX Prime - Setting the switching threshold (teach-in dynamic)

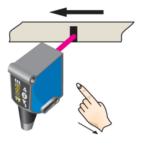

Suitable for teaching in moving objects.

#### 1. Position background

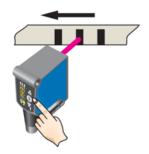

#### 2. Move at least the mark and background using the light spot

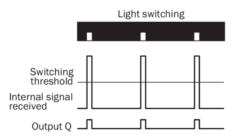

The display lights up during repeat length detection (---).

Press the Set pushbutton to end the teach-in process.
The Quality of Teach is displayed.

# Example Dark switching Internal signal received Switching threshold Output Q

#### **Switching characteristics**

The optimum emitted light is selected automatically (at RGB variants).

Static teach-in: light/dark setting is defined using teach-in sequence.

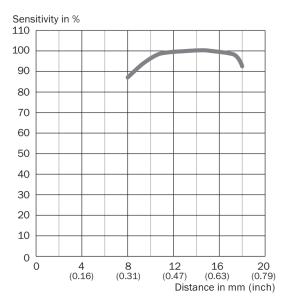

Dynamic teach-in: switching output active on mark, if background is longer in the field of view during the teach-in.

The switching threshold is set in the center between the background and the mark.

Keylock (activation and deactivation): Press and hold the "+" pushbutton > 10 s.

The Q-LED (yellow) flashes and the "Err" error message appears on the display.

#### Sensing distance Sensing distance 13 mm, light spot direction horizontal/vertical

#### SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
