#### Detailed technical data

#### **Features**

| Teatares  |   |
|---|---|
| Functional principle  | Photoelectric proximity sensor  |
| Functional principle detail   | Background suppression, MultiPulse  |
| Sensing range   |   |
| Sensing range min.  | 3 mm  |
| Sensing range max.  | 25 mm   |
| Reference object  | Object with 90% remission factor (complies with standard white according to DIN 5033) |
| Minimum distance between set sensing range and background (black 6% / white 90%)                | 1 mm, at a distance of 25 mm  |
| Emitted beam  |   |
| Light source  | PinPoint LED  |
| Type of light   | Visible red light   |
| Shape of light spot   | Point-shaped  |
| Light spot size (distance)  | Ø 4.2 mm (130 mm)   |
| Maximum dispersion of the emitted beam around the standardized transmission axis (squint angle) | < +/- 1.5° (at Ta = +23 °C)   |
| Key LED figures   |   |
| Normative reference   | EN 62471:2008-09   IEC 62471:2006, modified   |
| LED risk group marking  | Free group  |
| Wave length   | 635 nm  |
| Average service life  | 100,000 h at $T_a = +25  ^{\circ}\text{C}$  |
| Smallest detectable object (MDO) typ.   |   |

|                  | 0.2~mm (At 130 mm distance (object with remission factor of 90% (complies with standard white according to DIN 5033))) |
|------------------|--|
| Adjustment       |  |
| None             | -  |
| Display          |  |
| LED green        | Operating indicator<br>Static on: power on   |
| LED yellow       | Status of received light beam Oscillating: object present Static off: object not present                               |
| Special features | MultiPulse: sensor with self-monitoring Fixed sensing range 3 25 mm  |

## Safety-related parameters

| MTTF <sub>D</sub>             | 663 years |
|-------------------------------|-----------|
| <b>DC</b> <sub>avg</sub>      | 0%        |
| T <sub>M</sub> (mission time) | 20 years  |

#### Electronics

## display and adjustment elements

## Connection type Connector M8, 3-pin

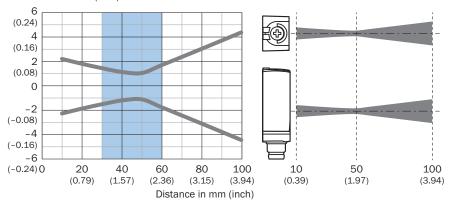

## Connection diagram Cd-522

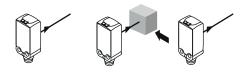

## Light spot size

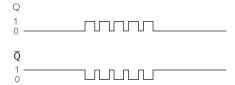

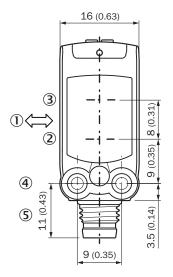

Recommended sensing range for the best performance

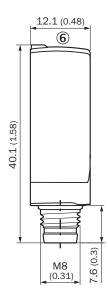

## Functional principle: switching status

## **Dimensional drawing**

Dimensions in mm (inch)

- ① Standard direction of the material being detected
- ② Center of optical axis, sender
- 3 Center of optical axis, receiver
- 4 M3 mounting hole
- ⑤ Connection
- (6) display and adjustment elements

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is "Sensor Intelligence."
