#### Characteristic curve

Take into account the following aspects when designing the application: the field of view geometry of the device, and the position of the field of view in the space in front of the device. Possible angles at which the objects can arise in relation to the device. For the planned working distance: resultant field of view length and width as well as the approximate resolution.

- ① Field of view: Horizontal x vertical in mm
- 2 approximate resolution in mm/px
- ③ f = 6 mm. Solid line with internal lighting, and dashed line with appropriate external illumination accessories.
- (4) f = 12 mm. Solid line with internal lighting, and dashed line with appropriate external illumination accessories.
- ⑤ Working distance/Focus position in mm
- **6** With external illumination
