### Detailed technical data

#### Features

<b>Software category</b>	Premium function
<b>Designation</b>	Virtual Scanner Group
<b>License type</b>	Single
<b>License description</b>	"Single user" license means that the customer is entitled to use the software at one workstation.
<b>Number of usage units</b>	Unlimited
<b>Number of licenses</b>	10
<b>Description</b>	The Virtual Scanner Group premium function makes it possible to display and configure the fields from several safety laser scanners in a shared field editor. This simplifies and speeds up the field configuration when several safety laser scanners are used in combination.
<b>Supported products</b>	microScan3 nanoScan3 outdoorScan3

#### System requirements

<b>Additional software</b>	Safety Designer (software for configuring and diagnosing safety solutions from SICK AG)
----------------------------	-----------------------------------------------------------------------------------------

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
