### Detailed technical data

#### Features

<b>Software category</b>	Additional software
<b>Designation</b>	Safety Configuration Deployment
<b>License type</b>	Company license
<b>License description</b>	The company license is purchased in packages of device units. One (1) device unit corresponds to an unlimited number of configuration transfers to one (1) device.
<b>Number of usage units</b>	50 device units
<b>Description</b>	SICK is offering an efficient addition to the Safety Designer Engineering Tool, namely the user-friendly Safety Configuration Deployment software. It makes it possible to quickly and easily copy configurations already created in Safety Designer, to update them, and to transfer them to safety devices. This ensures greater efficiency, especially in series production – both during commissioning of the machine and during maintenance. Transferring the configuration for this is intuitive via a USB interface or Ethernet. Safety Configuration Deployment can also be easily integrated into automated processes.
<b>Supported products</b>	Flexi Compact Flexi Mobile microScan3 nanoScan3 outdoorScan3
<b>Language</b>	English
<b>Items supplied</b>	Ticket to activate the additional software Software for download Operating instructions for download

#### System requirements

<b>Operating system</b>	Windows 10, Version 22H2 (x64 architecture) Windows 11, Version 21H2 (x64 architecture) Linux (x64 architecture and ARM architecture)
<b>Additional software</b>	Microsoft .NET Core 8.0

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
