## Detailed technical data

### Features

<b>Software category</b>	Additional software
<b>Designation</b>	FSD Automated Download
<b>License type</b>	Company license
<b>License description</b>	“Company license” means the customer is entitled to use the software on several devices or simultaneously at several workstations within his company.
<b>Description</b>	Flexi Soft automated download is a licensed feature of Flexi Soft Designer. It allows verified configurations, as well as ACR configurations, to be automatically downloaded to the Flexi Soft safety controller and connected EFI devices. An encrypted configuration script containing the verified configuration of the device including associated passwords is created in the Flexi Soft Designer. This is then passed as a command line parameter to the Flexi Soft download tool for downloading to the devices. Thanks to the detailed return value from the Flexi Soft download tool, it is ideally suited for integrating into automated processes.
<b>Supported products</b>	Flexi Soft
<b>Language</b>	English
<b>Items supplied</b>	Ticket to activate the additional software Software for download Operating instructions for download

### System requirements

<b>Operating system</b>	Windows 11 (x64 architecture) Linux (x64 architecture and ARM architecture)
<b>Additional software</b>	Requires Flexi Soft Designer version 1.9.1 or higher

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
