Detailed technical data

Features

Software category	Additional software
Designation	FSD Automated Download
License type	Test license
License description	The test license consists of a single license. This is a demo version in accordance with Section 5 of the SICK Software T&Cs. The following applies in addition to Section 5 of the SICK Software T&Cs: the rights of use granted above are granted for a fixed period of 90 days.
Description	Flexi Soft automated download is a licensed feature of Flexi Soft Designer. It allows verified configurations, as well as ACR configurations, to be automatically downloaded to the Flexi Soft safety controller and connected EFI devices. An encrypted configuration script containing the verified configuration of the device including associated passwords is created in the Flexi Soft Designer. This is then passed as a command line parameter to the Flexi Soft download tool for downloading to the devices. Thanks to the detailed return value from the Flexi Soft download tool, it is ideally suited for integrating into automated processes.
Supported products	Flexi Soft
Language	English
Items supplied	Ticket to activate the additional software Software for download Operating instructions for download

System requirements

Operating system	Windows 11 (x64 architecture) Linux (x64 architecture and ARM architecture)
Additional software	Requires Flexi Soft Designer version 1.9.1 or higher

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
