

: Corporate presentation SICK Group 2014

- : Founded in 1946 - **more than 65 years of sensing technology**
- : About **6,000 employees** around the world
- : Present in **more than 80 countries:**
With almost **50 subsidiaries and equity investments**
+ numerous specialized agencies
- : Group sales of **EUR 1 billion** in the fiscal year 2013
- : **Widest product and technology range** in the sensor industry
- : **Innovation leader** in sensing technology

SICK - one of the leading manufacturers of sensors and sensor solutions for industrial applications worldwide

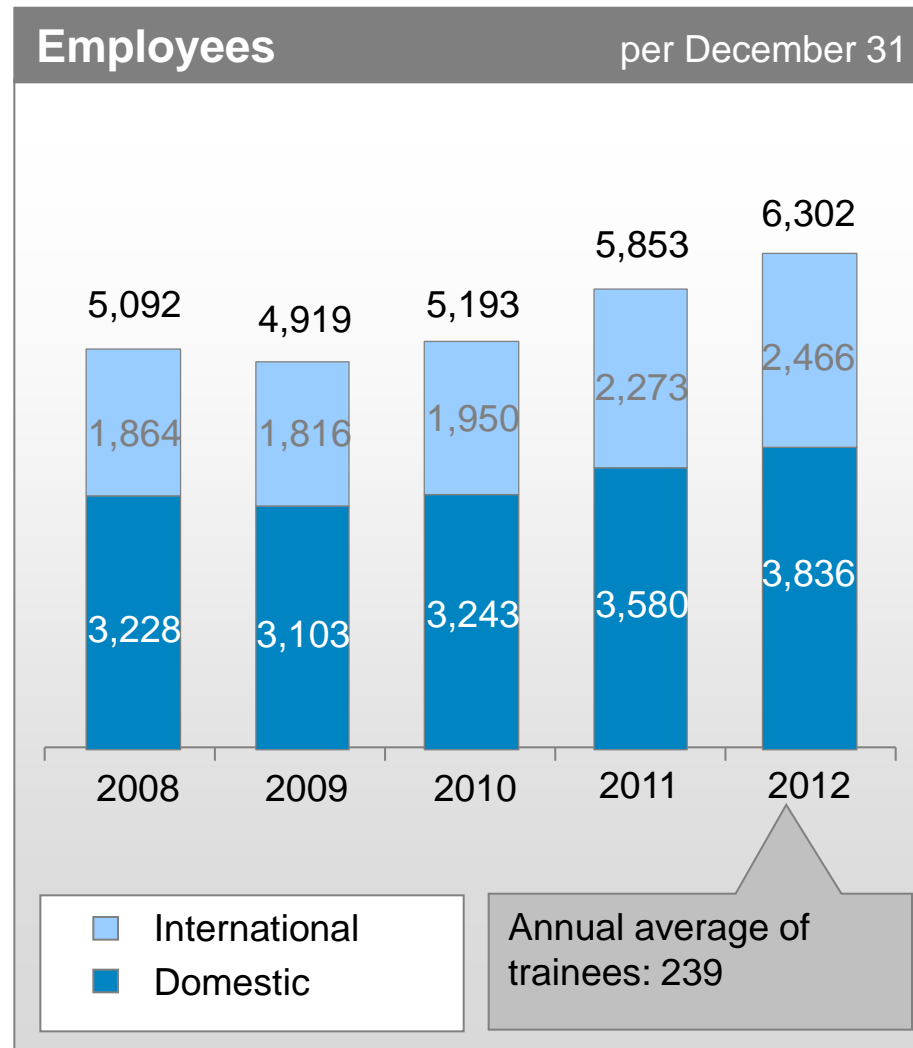

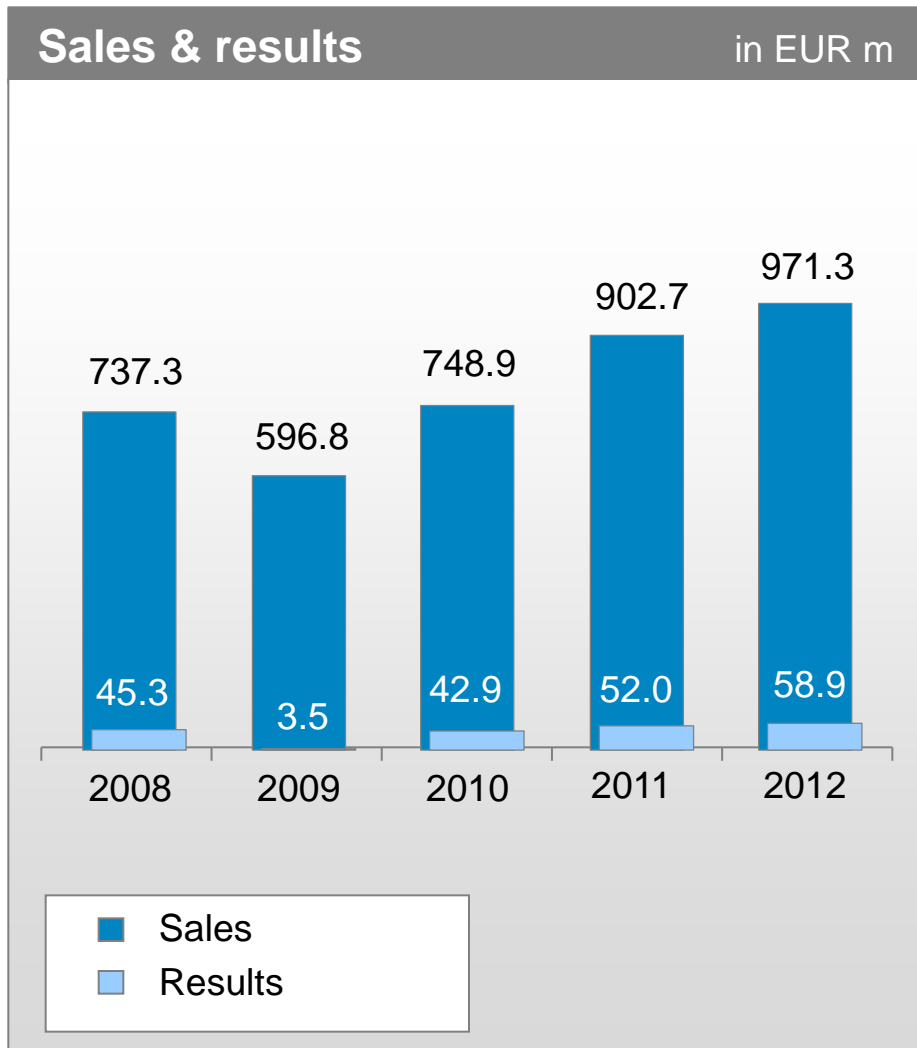

Continuity

Using innovative sensors brings you continuous competitive advantage

- 1950 First photoelectric switch based on autocollimator principle
- 1952 First light curtain for accident prevention
- 1956 First flue gas monitor
- 1978 First in-situ gas measurement device
- 1989 First distance sensor based on laser time-of-flight technology
- 2001 High-speed 2-D code reader
- 2004 First 3-D smart camera / ultrasonic gas flow meter
- 2007 High-end CCD sensor with integrated illumination
- 2009 Navigation based on natural landmarks
- 2010 Color Ranger E: the world's first high-speed 3D camera with high-performance color measurements
- 2011 EKS/EKM36: New motor feedback system with digital HIPERFACE DSL interface
- 2012 GHG-Control: Measuring rather than calculating greenhouse gases

Wide product range + experience + expertise = efficient solutions for you

Photoelectric sensors

Proximity sensors

Magnetic cylinder sensors

Identification solutions

Detection and ranging solutions

Fluid sensors

System solutions

Analyzers and systems

Gas flow measurement

Motor feedback system

Encoders

Vision

Opto-electronic protective devices

Safety switches

sens:Control – safe control solutions

Registration sensors

Distance sensors

Automation light grids

Software

Customized

Increase your performance through an individual automation solution

Detecting

Measuring

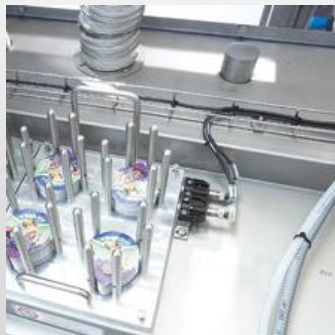

Protecting

Identification

Positioning

Networking & integration

Monitoring & controlling

Services

We are close to your industry

Your benefit: Easy communication + easy-to-use solutions

Process automation

- Power
- Waste & Recycling
- Cement
- Combustion Engines
- Chemical & HPI
- Metal & Steel
- Mining
- Oil & Gas

Factory automation

- Packaging
- Food & Beverage
- Pharma & Cosmetics
- Consumer Goods
- Print & Paper
- Electronics & Solar
- Machine Tool
- Metal Working
- Wood & Furniture
- Construction Materials & Glass
- Tire, Rubber & Plastic
- Textile
- Handling & Assembly
- Automotive and Part supplier
- Robotics
- Motion & Drives

Logistics automation

- Storage & Conveyor
- Retail
- Courier, Express, Postal & Cargo
- Airports
- Industrial Vehicles
- Traffic
- Ports
- Cranes
- Building Management
- Building Security

We keep your business processes running

Support during the whole machine lifecycle

Secure your investment with consultation and design services

Improve productivity with product and system support

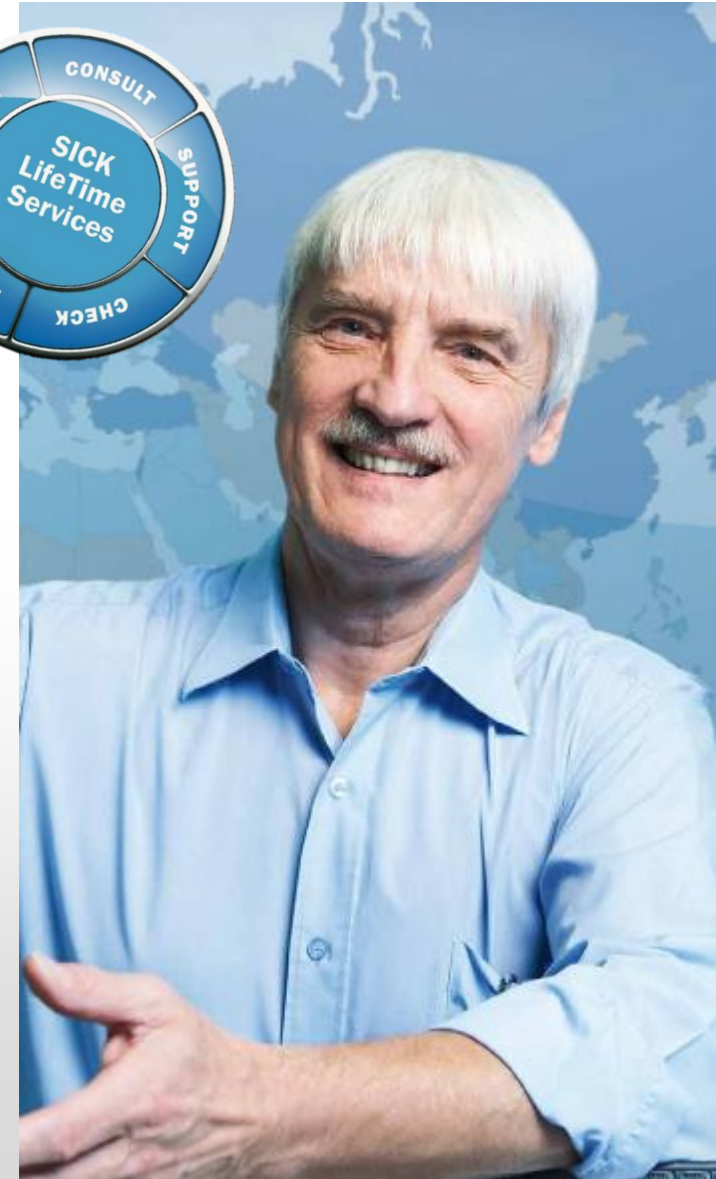

Increase safety with monitoring and optimization

Increase performance through upgrade services and retrofitting

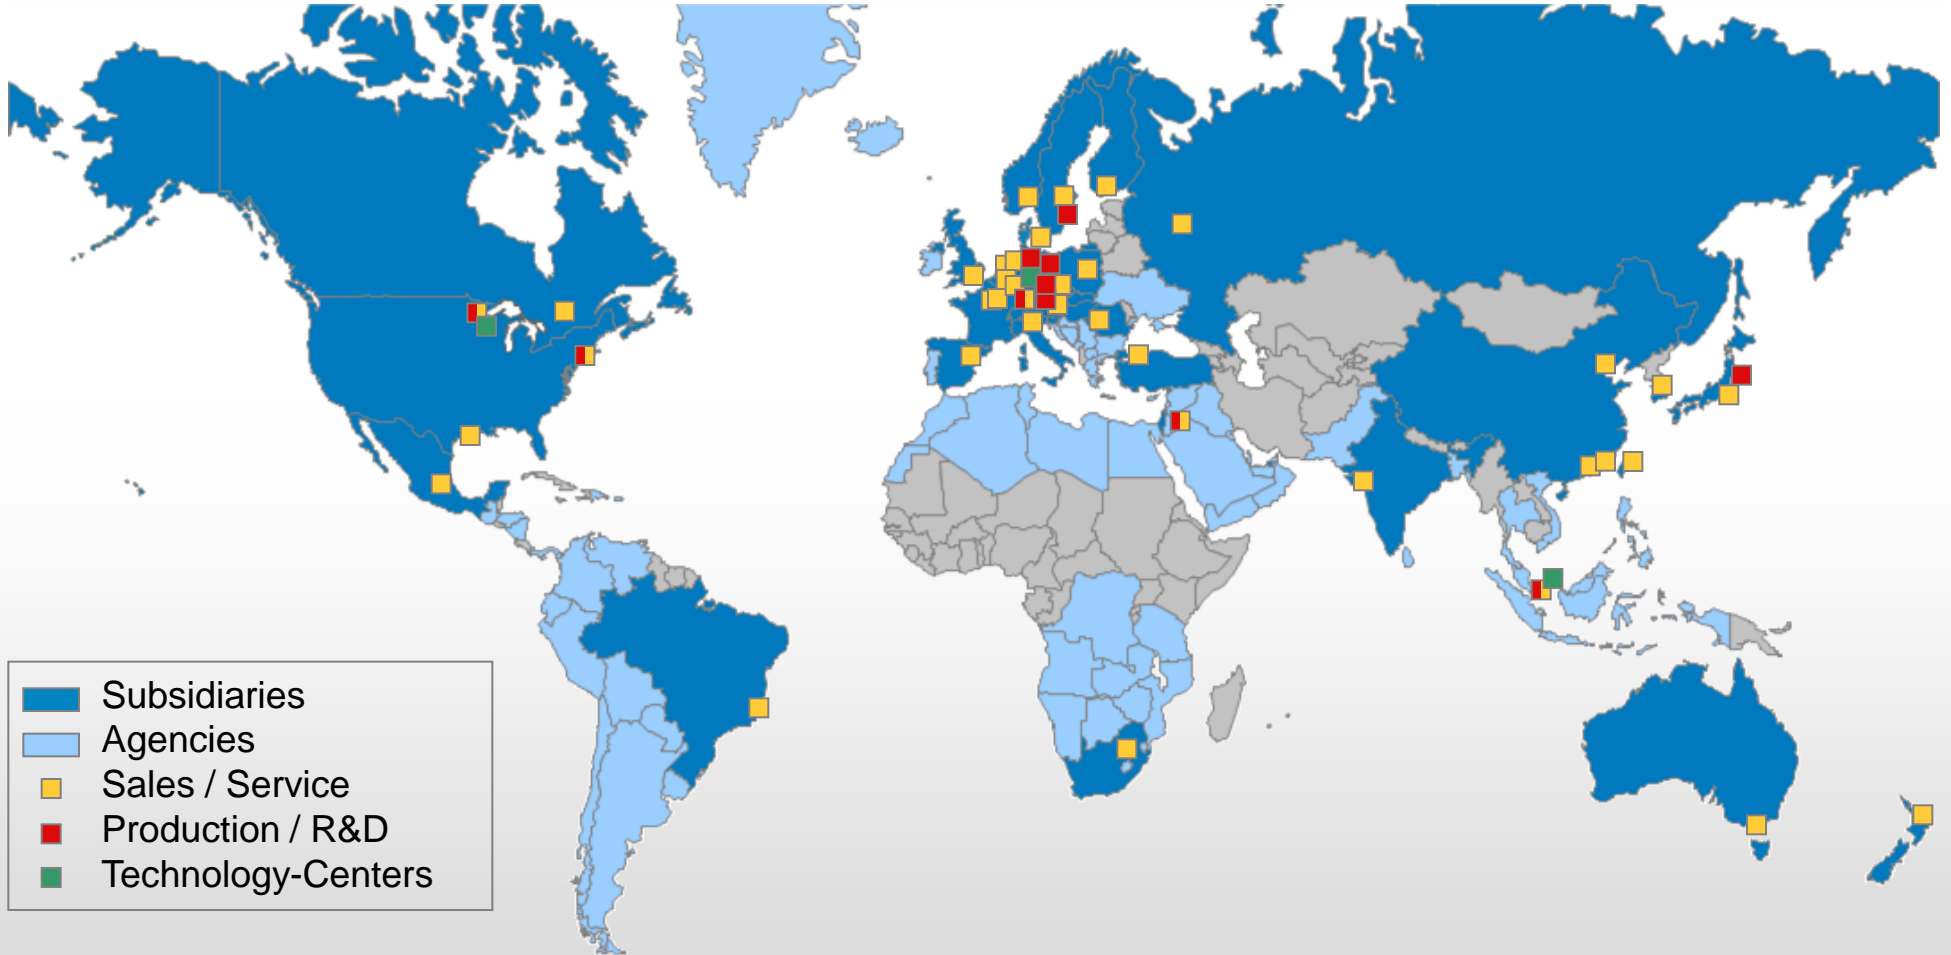

Build competence through training and advanced training

Always close to you

Short distances save you time and money

How you can benefit from intelligent sensor solutions of SICK

Safe investment

Customer oriented

Efficient solutions

Local contact persons

SICK
Sensor Intelligence.

Comfortable solutions

High performance

On time

Professional services

SICK in Belgium & Luxemburg

- : 46 employees
- : General Manager: Bernard Lejour
- : Founded in 1987 as 100% sub.
- : Activity: Sales, Service & Maintenance
- : Portfolio of more than 3.000 customers
- : Turnover 21,9 mio EUR in 2013
- : ISO 9001 certification
