### Detailed technical data

#### Features

<b>Description</b>	Compliance with safety standards is crucial in order to make packaging processes safe and efficient. This three-part training course provides an overview of the safety requirements for packaging machines in accordance with the EN 415-x series of standards for Europe and ANSI B155.1 for the USA. It presents the machine types for primary, secondary and end-of-line packaging (tertiary packaging) and illustrates typical safety requirements using practical application examples. The video training courses are available online and offer solid entry-level knowledge, taught by English-speaking experts with subtitles in other languages.
<b>At a glance</b>	Basic level of knowledge Standards: EN 415-2, EN 415-3, EN 415-4, EN 415-5, EN 415-6, EN 415-7, EN 415-8 and ANSI B155.1 Learning progress can be checked with questions at the end of each training course
<b>Your benefits</b>	Overview of the safety requirements for packaging machines for primary, secondary and end-of-line packaging (tertiary packaging) at a basic level Clear presentation in the form of learning videos with practical examples 24/7 availability of content
<b>Objectives</b>	Getting to know the machine types for packaging and the associated standards Overview of the production steps for packaging Identification of typical safety solutions Understanding the safety requirements according to the standard
<b>Attendance type</b>	Online
<b>Training format</b>	Web-based training
<b>Duration</b>	30 minutes
<b>License period</b>	Online access to training valid for 12 months
<b>Level</b>	Basics
<b>Target audience</b>	Application engineers System integrators Designers Safety officers Maintenance Project engineers Students
<b>Available languages</b>	German English Simplified Chinese Portugese Spanish
	Note English spoken, all other languages as subtitles
<b>Certificate</b>	SICK
<b>Technical prerequisites</b>	PC or laptop with a current web browser and an Internet connection

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
