

Virtual Line Navigation - License Key

LiDAR-LOC

APPLICATION SOFTWARE

SICK
Sensor Intelligence.

Ordering information

Type	part no.
Virtual Line Navigation - License Key	1122752

Detailed technical data

Features

Description	Virtual Line Navigation is a functional extension of LiDAR localization for simple navigation using virtual tracks.
Task	Localizing, navigating and guiding - Localizing Localizing, navigating and guiding - Navigating Determining position - 2D position determination
Application	Navigation of mobile robots (AMRs/AGVs) using virtual tracks.
Output data	Virtual track signal (calculated y-deviation for virtual track center), Virtual code information (output of code information corresponding to a virtual code reader)
Language	English
Supported products	MLS OLS GLS
Support with reflectors (R4S)	Localization even in difficult environments with the help of reflectors

Licenses

Product type	Software
License type	Device license
License description	The software is provided as a device license. A license is bound to a specific hardware ID.
Fee-based	Yes
License period	The license is issued without a time limit.
Provision	The license is provided via a ticket that you will receive in an e-mail. To use it, you need to activate the license at license.sick.com on the target device.

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
