Product description

The extended warranty offers long-term protection of SICK products for a calculable lump sum. Customers benefit above and beyond the standard warranty and protect their investment from unexpected repair costs in the long run. The warranty can be extended in line with customer requirements. This includes on-site improvement, repair or exchange in the event of a warranty case.

At a glance

- Extension of warranty by one year in each case
- Services correspond to the scope of the manufacturer warranty
- Calculable one-time payment when purchasing the product

Your benefits

- Protection from unexpected repair costs even after the statutory warranty has expired
- Free improvement, repair and exchange of the device in the event of a warranty case
- Value preservation of your plant or system since it is transferable to the next owner and valid all over the world

Detailed technical data

Features

Product segment	SICK LifeTime Services
Product subsegment	Product and system support
Product area	FLOWSIC600
Prerequisites	The device or the system is operated within the specifications. Maintenance and repair work were done by qualified staff in accordance with the maintenance intervals. Damage can be traced back to a device defect not caused by outside influences.
Range of services	Extension of legally applicable warranty regulations by 1 year, incl. free provision of required spare parts, only applies to new device offers
Duration	1 year extended warranty (multiple ordering possible for multiple-year extension)
Note	The services correspond to the scope of the statutory warranty (SICK General Terms of Delivery) The warranty can be extended by 1 year in each case beyond the statutory warranty subject to a surcharge in addition to the purchase price. The extended warranty must be ordered when purchasing the product. It is linked to a specific product (serial number) and cannot be transferred to a different product.

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
