Detailed technical data

Features

Description	In these courses with informative videos on troubleshooting faulty devices, you will learn the sequence in which you can exclude interference factors and eliminate errors. Test questions help you to consolidate your knowledge and apply it in your daily work. In a total of 8 videos, SICK teaches you about the following devices: LMS4000, ICR890-4, deflector mirror for ICR890, WL18, Lector65x and 85x, DFV60, CLV690, control cabinet.
At a glance	Video tutorials on devices in track and trace systems Basic videos on troubleshooting the devices Quiz to consolidate what you have learned
Your benefits	Reduces downtimes of track and trace systems Rapid development of expertise in resolving technical problems Quick acquisition of expertise in SICK devices; no external training required
Objectives	You will learn which faults can occur You will learn how to recognize errors You will learn how to eliminate faults
Attendance type	Online
Training format	Video tutorial
Duration	2 hours
License period	Online access to training valid for 12 months
Level	Basics
Target audience	System integrators Service and maintenance staff System operator Application engineers Maintenance
Available languages	English
Certificate	SICK

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
