DETAILED TECHNICAL DATA

FEATURES

Description	The EventCam app (IPC) is a digital solution for industrial PCs combined with the picoCam or midiCam from SICK. It turns these cameras into event cameras that record a defined period of time before and after a trigger signal. Event recording is now possible in addition to the main applications.
Task	Event recording as video or individual image sequence
Operator interfaces	Web-Interface
Language	English
Documentation	Online help
Supported products	picoCam1 midiCam1 SID160 Pro

SYSTEM REQUIREMENTS

Supported browsers	Latest Google Chrome version
Installation tool	SICK AppManager

Further information as well as suitable accessories, example applications and downloads such as CAD dimensional models, operating instructions and software can be found at www.sick.com/1616071

SICK AT A GLANCE

SICK is a leading global technology company for intelligent sensors and integrated solutions in industrial automation. Our technologies set benchmarks, making your industrial processes more efficient, safer and more sustainable – both in logistics and manufacturing operations.

SICK combines sensor intelligence with industry expertise and certified consulting services. We provide the ideal foundation for scalable as well as tailor-made automation solutions and create added value along the entire value chain. Our close partnerships with our customers are more than just a promise: Together, we optimize productivity, improve quality, protect health and safety, and help build a sustainable future. All with empathy and trust.

Since 1946, we have been developing innovative technologies with passion and a pioneering spirit. With a global network in around 40 countries, SICK has a global presence and is always close by. The company's headquarters are located in Waldkirch near Freiburg, Germany. Our customers benefit from our understanding of both local and global requirements, which enables us to deliver tailor-made solutions
