DETAILED TECHNICAL DATA

FEATURES

Description	The Nova Visionary-S SensorApp with Presence Inspection toolset uses 3D vision and 2D color tools to solve by simple means presence inspection applications in factory, logistics, and process automation. This ensures that desired objects are present and correctly positioned, or undesired and foreign objects are reliably detected.
Task	Detecting - Standard objects Detecting - Level Measuring - Dimension, contour and volume Monitoring and controlling - Quality Identifying - Pattern Identifying - Sorting Determining position - 2D position determination Determining position - 3D position determination
Technology	3D snapshot, image analysis

[1] Require a vision sensor with color imager.

Product category		Programmable, configurable
SICK Nova Toolset		
	Presence Inspection License	Area Blob Finder (2D, 3D) Blob Finder Color (2D) [1] Blob Locator (2D) Blob Locator Color (2D) [1] Blob Region Finder Completeness Check Edge Pixel Counter (2D) Feature Locator Missing Data Filter Morphology Filter (2D, 3D) Noise Reduction Filter (2D, 3D) Object Locator (2D, 3D) Pixel Counter (2D) Pixel Counter Color (2D) [1] Plane Fitter Probe Color [1] Probe Height Surface Fitter AI Anomaly Detection (2D, 2-hour test phase) AI Anomaly Detection (dStudio) (2D, 2-hour test phase) AI Blob Finder (dStudio) (2D, 2-hour test phase) AI Classification (2D, 2-hour test phase) AI Classification (dStudio) (2D, 2-hour test phase) AI Object Detection (dStudio) (2D, 2-hour test phase)
	Quality Inspection License	Angle Blob Analyzer Blob Verifier Box Finder Circle Fitter Color Classification (2D) [1] Distance (2D, 3D) Line Line Fitter (2D, 3D) Min/Max Plane Point Position Verifier (2D) Volume AI Anomaly Detection (2D, 2-hour test phase) AI Anomaly Detection (dStudio) (2D, 2-hour test phase) AI Blob Finder (dStudio) (2D, 2-hour test phase) AI Classification (2D, 2-hour test phase) AI Classification (dStudio) (2D, 2-hour test phase) AI Object Detection (dStudio) (2D, 2-hour test phase)
	Intelligent Inspection License	AI Anomaly Detection (2D) AI Anomaly Detection (dStudio) (2D) AI Blob Finder (dStudio) (2D) AI Classification (2D) AI Classification (dStudio) (2D) AI Object Detection (dStudio) (2D)
Expansion options		The SICK Nova Tool plug-in enables customer-specific or new tools to be added. Development and customization of the tools is supported by SICK AppSpace and SICK AppStudio.
Language		English, German
Documentation		Operating instructions
Supported products		Visionary-S AP

[1] Require a vision sensor with color imager.

SYSTEM REQUIREMENTS

Firmware	See release notes or AppPool for the respective version of the SensorApp
Minimum screen resolution	1,366 px x 768 px
Supported browsers	Google Chrome (version 80 or higher)
Installation tool	SICK AppManager License Manager SensorApp (for activating the license on the device)

Further information as well as suitable accessories, example applications and downloads such as CAD dimensional models, operating instructions and software can be found at www.sick.com/SICK Nova

SICK AT A GLANCE

SICK is a leading global technology company for intelligent sensors and integrated solutions in industrial automation. Our technologies set benchmarks, making your industrial processes more efficient, safer and more sustainable – both in logistics and manufacturing operations.

SICK combines sensor intelligence with industry expertise and certified consulting services. We provide the ideal foundation for scalable as well as tailor-made automation solutions and create added value along the entire value chain. Our close partnerships with our customers are more than just a promise: Together, we optimize productivity, improve quality, protect health and safety, and help build a sustainable future. All with empathy and trust.

Since 1946, we have been developing innovative technologies with passion and a pioneering spirit. With a global network in around 40 countries, SICK has a global presence and is always close by. The company's headquarters are located in Waldkirch near Freiburg, Germany. Our customers benefit from our understanding of both local and global requirements, which enables us to deliver tailor-made solutions
