DATA SHEET

Presence Inspection License

SICK Nova
Application software

SICK Sensor Intelligence

APPLICATION SOFTWARE

Presence Inspection License

ORDERING INFORMATION

Type	part no.
Presence Inspection License	1128701

Further device versions and accessories at www.sick.com/SICK_Nova

DETAILED TECHNICAL DATA

FEATURES

Description	The Presence Inspection license makes it possible to use some of the tools of the SICK Nova SensorApp. Using these tools, vision sensors verify, for example, whether or not objects – like on a conveyor – meet the relevant specifications and are positioned correctly.
Task	Detecting - Standard objects Detecting - Level Measuring - Dimension, contour and volume Monitoring and controlling - Quality Identifying - Pattern Identifying - Sorting Determining position - 2D position determination Determining position - 3D position determination
SensorApps	Nova Visionary-S, Nova Visionary-T Mini, Nova LMS4000
Product category	Programmable, configurable
Expansion options	The SICK Nova Tool plug-in enables customer-specific or new tools to be added. Development and customization of the tools is supported by SICK AppSpace and SICK AppStudio.
Documentation	Operating instructions

SYSTEM REQUIREMENTS

Minimum screen resolution	1,366 px x 768 px
Installation tool	SICK AppManager

LICENSES

Product type	Software
License type	Device license
Function range	Full version
Fee-based	Yes
License period	Unlimited
Provision	The license is sold with a ticket that you receive in an e-mail. For use on a specific SICK device, you must activate the license at license.sick.com.

Expansion options	Customers can expand the usable toolset, if available in the SICK Nova SensorApp, with the Quality Inspection Upgrade license.

Further information as well as suitable accessories, example applications and downloads such as CAD dimensional models, operating instructions and software can be found at www.sick.com/1128701

SICK AT A GLANCE

SICK is a leading global technology company for intelligent sensors and integrated solutions in industrial automation. Our technologies set benchmarks, making your industrial processes more efficient, safer and more sustainable – both in logistics and manufacturing operations.

SICK combines sensor intelligence with industry expertise and certified consulting services. We provide the ideal foundation for scalable as well as tailor-made automation solutions and create added value along the entire value chain. Our close partnerships with our customers are more than just a promise: Together, we optimize productivity, improve quality, protect health and safety, and help build a sustainable future. All with empathy and trust.

Since 1946, we have been developing innovative technologies with passion and a pioneering spirit. With a global network in around 40 countries, SICK has a global presence and is always close by. The company's headquarters are located in Waldkirch near Freiburg, Germany. Our customers benefit from our understanding of both local and global requirements, which enables us to deliver tailor-made solutions
