

NOW RECRUITING

Project Engineer

Overview

We have an exciting opportunity for a Project Engineer to join our Track & Trace/Auto Ident Support team. Ideally you will be a 'hands-on', commissioning biased Project Engineer who will work on pre & post sales and project support such as installation, commissioning – for Auto Ident & Track & Trace products.

Key Responsibilities

- Acquiring and maintaining knowledge of SICK FA/LA (Factory Automation/Logistics Automation) products and supply support for these products
- Carrying out onsite installation & commissioning as a primary function. Carry out preventative maintenance, support, repair and breakdown visits as a secondary function. Both aspects will include travel, stay away over night or, on occasion, work at weekends
- Conducting basic project management tasks as directed by the management team and ensuring the projects are achieved on time and within budget
- Carrying out all aspects of system installation, commissioning and support
- Helping with the scheduling of preventative maintenance visits and ensuring that all pre-work documentation is completed prior to customer maintenance or breakdown visit
- Ensuring that all post visit reports, e. g. for installation, commissioning, preventative maintenance, breakdowns, are completed to the required standard, signed, countersigned by the customer, and sent in a timely manner to the Systems office
- Contacting the Lead Project Engineer – Track & Trace Systems as a “First Port of Call” should assistance be required when working on customer sites
- Liaising with component suppliers and build up third party knowledge
- Providing technical, application and trial support and carry out demonstrations primarily on FA/LA products (telephone and site based) to customers, other SICK engineers in the UK or in the SICK SSC03 Cluster (South West Europe) and the SICK Sales Team
- Where required, assisting the Sales Teams in selling the

About Us

SICK is a world-leading supplier of industrial sensors. Founded in 1946 by Dr Erwin Sick in Freiburg, Germany, it is a technology and market leader with a global presence of over 50 subsidiaries and associated companies.

However, SICK delivers more than just products. We provide customers with intelligent solutions and services tailored to their needs.

Like the company founder Erwin Sick, we see ourselves as innovators with the determination to improve a little every day – by listening to our customers and asking the questions that nobody has asked before.

As an employee, you can expect to work for a company where career development and quality of life do not have to be mutually exclusive! SICK is regularly ranked among the top companies in the 'Great Place to Work' competition (Germany).
